

MISSION

We, the members of MOVE Wisconsin, will work together to unite the voices and causes of a diverse group of youth and young adults while raising awareness around the issues that pertain to them. We will empower members of MOVE Wisconsin to come together around the causes that are important to them.

VISION

MOVE Wisconsin envisions a day when youth and young adults are comfortable advocating for themselves and that their voices will be heard and valued by the people who help and support them in the communities in which they live. MOVE Wisconsin will encourage leaders to advocate for their own rights and break the stigma around mental health, by building a foundation that will help promote and empower the youth and young adults voice in Wisconsin. Youth and young adults will promote equality not only in their personal and daily lives, but in the community at large.
